

RECYCLED PLASTIC POTS

At Ozplast, sustainability is more than a goal — it's part of who we are. As part of our ongoing commitment to reducing waste and supporting environmental responsibility, we've created a line of plastic pots made entirely from recycled materials.

These pots are crafted using recycled polyethylene, sourced from both our own operations and materials returned by our clients. By giving this plastic a second life, we help minimize waste while transforming discarded materials into durable, high-quality products.

GENERAL FEATURES

- ✓ Eco-Friendly – Made from 100% recycled LLDPE
- ✓ Unique Colours – Each pot has a distinctive look, reflecting the story of the recycled materials used
- ✓ Various Sizes Available – Options to suit a wide range of needs
- ✓ Locally Made – Designed and produced in the UAE

Every pot is a small step towards a greener future—stylish, functional, and sustainably made.
